ART CAPTURE/DIGITIZING

Prism Print Shop digitizes by studio method, using cameras and lighting. We can photograph any size of artwork. We ask you to leave your original with us for 5-10 days (depending on demand) to complete the process.

You will receive a digital file of your artwork via Dropbox or email, which you have full rights to. We will also keep a copy on file for future printing needs.

All new customers will be asked to sign a form stating ownership or rights to digitize and create prints.

\$20 For Image Capture

Recommended for online images, gallery submissions, social media images, etc.

Includes

- Professional Image Capture and File Format
- 2 Copies of your image delivered via Dropbox. A JPEG and TIF. (Additional files may be requested)
- *Does not include color matching to paper or any physical products*

\$25 For Print Ready Capture

Includes

- The above image capture services.
- Soft proofing for print files. This will not guarantee an accurate color match, but will give you high-quality images and prints.
- One sample print on the paper of your choice. All paper and canvas options included in the price.

\$35 For Professional Print Capture

Includes

- All above image capture services.
- Professional capture for print files. A more detailed edit to more accurately color match your painting to the paper of your choice.
- One proofing session with the artist for any additional edits they may want to see adjusted/
- One sample print on the paper of your choice. All paper and canvas options included in the price.

***If you have 10+ originals to be digitized, prices will drop \$5 per piece.*

Additional Services

- \$20 to color match to a digital file provided by artist. If you already have a digital file, instead of printing straight from the file sent, we will do a soft proof edit to color match to our color-calibrated screen.
- \$2 to scan an image 8x10 or smaller. Color matching not included. Recommended for old photographs. Additional touch-up services available upon request.

- \$20 Upgrade your digital image to a high-resolution, scalable vector file. This increases the quality of each image and allows for larger print options. This is only recommended for banners and stickers. Not for original artwork being captured.
- \$30/hour design. While these services are very limited, Prism is able to create custom designs. We are not graphic designers, but we can help create basic designs for stickers and banners. We are happy to recommend more capable graphic designers if necessary.

CUSTOM VINYL STICKERS

We can create stickers from any of your art pieces and personal designs that we have a digital file for. We offer die-cut and shaped options. Prices based on the longest side of the sticker. Stickers are high quality vinyl that are water/weather resistant, dishwasher safe.
